Students raise awareness against e-waste

Chennai: In a bid to spreading awareness about electronic waste, the department of public relations, Stella Maris College, inaugurated E-RACE (Responsible Act to Change the Environment), a campaign on E-waste Management.

As part of the campaign, students have been holding presentations at various college campuses in the city and have interacted with more than 500 students.

The campaign is in partnership with Virogreen India, a certified e-waste recycler.

S Shrinidhi, head of the department of public relations, Stella Maris College said, "PR campaigns have been conducted by our students since the inception of the department in 2006. Our curriculum provides students a platform for experiential learning and has proven to be beneficial to their careers. This campaign also allows students to sensitise on e-waste management and become socially responsible citizens."

A public collection drive will be undertaken by the students on February 23. **TNN**
