STELLA MARIS COLLEGE (AUTONOMOUS) CHENNAI – 86 (For candidates admitted from the academic year 2023 – 2024)

M.A DEGREE EXAMINATION, NOVEMBER 2023 BRANCH III - ECONOMICS FIRST SEMESTER

COURSE : **CORE**

PAPER : RESEARCH METHODS AND ANALYSIS – I (THEORY)

SUBJECT CODE: 23EC/PC/RM14

TIME : 1½ HOURS MAX. MARKS: 60

SECTION A	TIME	: 172 HOURS MAX. MARKS: 00		
Q. No. Answer any TWO out of THREE questions in about 50 words each 1 1 1 2 What is empirical approach to research? 1 1 1 1 1 1 1 1 1			CO	KL
State the meaning of Scientific research 1				
State the meaning of Scientific research 1 1 1 2 What is empirical approach to research? 1 1 1 3 Bring out the meaning of applied research 1 1 1 1 1 1 1 1 1	Q. No.	Answer any TWO out of THREE questions in about 50		
2		words each		
3 Bring out the meaning of applied research	1	State the meaning of Scientific research	1	1
PART - B (2 x 3 = 6) Q. No. Answer any TWO out of THREE questions in about 50 words each 4 Examine the choice of research topic 5 State the meaning and purpose of literature review 6 How can the research problem be formulated? 2 2 SECTION B CO KL PART - A (2 x 6 = 12) Q. No. Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 3 3 8 What is Latin square design? 3 3 3 9 Bring out the steps in report writing 7 PART - B (2 x 6 = 12) PART - B (2 x 6 = 12) Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 4 12 Explain logging & tracking of data 5 SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies	2	What is empirical approach to research?	1	1
Q. No. Answer any TWO out of THREE questions in about 50 words each 4 Examine the choice of research topic 2 2 5 State the meaning and purpose of literature review 2 2 6 How can the research problem be formulated? 2 2 SECTION B CO KL PART - A (2 x 6 = 12) Q. No. Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 3 3 8 What is Latin square design? 3 3 3 9 Bring out the steps in report writing 3 3 3 PART - B (2 x 6 = 12) CO KL Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 4 4 12 Explain logging & tracking of data 4 4 SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 4 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies 4 4	3	Bring out the meaning of applied research	1	1
words each 4 Examine the choice of research topic 5 State the meaning and purpose of literature review 6 How can the research problem be formulated? 2 2 SECTION B PART - A (2 x 6 = 12) CO KL PART - A (2 x 6 = 12) Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 8 What is Latin square design? 9 Bring out the steps in report writing PART - B (2 x 6 = 12) CO KL Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 4 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies		· · · · · · · · · · · · · · · · · · ·	CO	KL
4 Examine the choice of research topic 5 State the meaning and purpose of literature review 6 How can the research problem be formulated? 2 2 SECTION B PART - A (2 x 6 = 12) CO KL PART - A (2 x 6 = 12) Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 3 3 8 What is Latin square design? 3 3 9 Bring out the steps in report writing PART - B (2 x 6= 12) CO KL Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 4 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies	Q. No.	Answer any TWO out of THREE questions in about 50		
5 State the meaning and purpose of literature review 6 How can the research problem be formulated? 2 2 SECTION B PART - A (2 x 6 = 12) Q. No. Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 8 What is Latin square design? 9 Bring out the steps in report writing 9 Bring out the steps in report writing 10 Distinguish between small & large sample tests 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data 4 4 12 Explain logging & tracking of data 4 4 13 b Explain frequency distribution with example 14 a Elucidate the various components of research design 15 a Examine the significance and form of case studies SECTION of Case studies 4 4 4 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5 5				
SECTION B PART - A (2 x 6 = 12) Q. No. Answer any TWO out of THREE questions in about 150 words each Explain the sources of secondary data 8 What is Latin square design? 9 Bring out the steps in report writing PART - B (2 x 6 = 12) Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 10 Distinguish between small & large sample tests 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data 13 Explain logging & tracking of data Q. No. Answer any TWO out of THREE questions in about 700 words each 13 Discuss the components of presentation of research report 14 Explain frequency distribution with example 15 Discuss Correlation with suitable examples 15 Examine the significance and form of case studies		i i		
Q. No. Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 8 What is Latin square design? 9 Bring out the steps in report writing 10 Distinguish between small & large sample tests 10 Distinguish between small & large sample tests 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data 13 Explain logging & tracking of research report 13 a Discuss the components of presentation of research report 14 a Elucidate the various components of research design 15 a Examine the significance and form of case studies CO KL A S C TION B (2 x 6 = 12) A S C TION C (2 x 12 = 24) A S C T				
PART - A (2 x 6 = 12) Q. No. Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 8 What is Latin square design? 9 Bring out the steps in report writing 7 PART - B 10 PART - B 10 Distinguish between small & large sample tests 10 Distinguish between small & large sample tests 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data 13 Explain logging & tracking of data 14 PART - B 15 Explain frequency distribution with example 16 Explain frequency distribution with example 17 Explain frequency distribution with example 18 Elucidate the various components of research design 19 Bring out the meaning and use of dummy variable 4 CENTER TOWN CONTRIBUTE TOWN CONTRIB	6	How can the research problem be formulated?	2	2
Q. No. Answer any TWO out of THREE questions in about 150 words each 7 Explain the sources of secondary data 8 What is Latin square design? 9 Bring out the steps in report writing 10 PART – B 10 Distinguish between small & large sample tests 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data 13 a Discuss the components of presentation of research report 13 a Discuss the components of presentation of research report 14 a Elucidate the various components of research design 15 a Examine the significance and form of case studies 3 3 CO KL CO KL Answer any TWO out of THREE questions in about 150 words each 10 Discuss the components of presentation of research report 4 4 4 4 4 5 5 5 5 5 6 5 7 5 8 5 6 8 6 7 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8 8			CO	KL
words each7Explain the sources of secondary data338What is Latin square design?339Bring out the steps in report writing33PART - B(2 x 6= 12)COKLQ. No.Answer any TWO out of THREE questions in about 150 words each10Distinguish between small & large sample tests4411Bring out the meaning and use of dummy variable4412Explain logging & tracking of data44Q. No.Answer any TWO out of THREE questions in about 700 words each4413 aDiscuss the components of presentation of research report4413 bExplain frequency distribution with example5514 aElucidate the various components of research design4414 bDiscuss Correlation with suitable examples5515 aExamine the significance and form of case studies44		$PART - A (2 \times 6 = 12)$		
7 Explain the sources of secondary data 8 What is Latin square design? 9 Bring out the steps in report writing 3 3 PART – B (2 x 6= 12) CO KL Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 4 13 b Explain frequency distribution with example 14 a Elucidate the various components of research design 14 a Elucidate the various components of research design 15 a Examine the significance and form of case studies 4 4	Q. No.			
8 What is Latin square design? 9 Bring out the steps in report writing PART – B (2 x 6= 12) CO KL Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 4 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies		words each		
PART – B (2 x 6= 12) CO KL Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 11 Bring out the meaning and use of dummy variable 4 12 Explain logging & tracking of data SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 4 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies	7		3	
PART - B (2 x 6= 12) CO KL Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 11 Bring out the meaning and use of dummy variable 4 12 Explain logging & tracking of data 4 SECTION C (2x12=24) Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 13 b Explain frequency distribution with example 5 14 a Elucidate the various components of research design 4 14 b Discuss Correlation with suitable examples 5 15 a Examine the significance and form of case studies 4				
Q. No. Answer any TWO out of THREE questions in about 150 words each 10 Distinguish between small & large sample tests 4 4 4 4 4 4 4 4 4 4 4 4 4 4 4 4 4 4	9	Bring out the steps in report writing	3	3
words each10Distinguish between small & large sample tests4411Bring out the meaning and use of dummy variable4412Explain logging & tracking of data44SECTION C(2x12=24)Answer any TWO out of THREE questions in about 700 words each13 aDiscuss the components of presentation of research report4413 bExplain frequency distribution with example5514 aElucidate the various components of research design4414 bDiscuss Correlation with suitable examples5515 aExamine the significance and form of case studies44		PART - B (2 x 6= 12)	CO	KL
10 Distinguish between small & large sample tests 11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data SECTION C (2x12=24) Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies 4 4	Q. No.	Answer any TWO out of THREE questions in about 150		
11 Bring out the meaning and use of dummy variable 12 Explain logging & tracking of data SECTION C (2x12=24) Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 4 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies 4 4		words each		
12 Explain logging & tracking of data SECTION C (2x12=24) Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 13 b Explain frequency distribution with example 5 14 a Elucidate the various components of research design 4 14 b Discuss Correlation with suitable examples 5 15 a Examine the significance and form of case studies 4		<u> </u>	4	4
Q. No. Answer any TWO out of THREE questions in about 700 words each 13 a Discuss the components of presentation of research report 4 13 b Explain frequency distribution with example 5 14 a Elucidate the various components of research design 4 14 b Discuss Correlation with suitable examples 5 15 a Examine the significance and form of case studies 4		·		
Q. No.Answer any TWO out of THREE questions in about 700 words each13 aDiscuss the components of presentation of research report4413 bExplain frequency distribution with example5514 aElucidate the various components of research design4414 bDiscuss Correlation with suitable examples5515 aExamine the significance and form of case studies44	12	1 00 0	4	4
words each13 aDiscuss the components of presentation of research report413 bExplain frequency distribution with example514 aElucidate the various components of research design414 bDiscuss Correlation with suitable examples515 aExamine the significance and form of case studies4				
13 a Discuss the components of presentation of research report 13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies 4 4	Q. No.			
13 b Explain frequency distribution with example 5 5 14 a Elucidate the various components of research design 4 4 14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies 4 4		words each		
14 aElucidate the various components of research design4414 bDiscuss Correlation with suitable examples5515 aExamine the significance and form of case studies44		• • •		
14 b Discuss Correlation with suitable examples 5 5 15 a Examine the significance and form of case studies 4 4	13 b	Explain frequency distribution with example		5
15 a Examine the significance and form of case studies 4 4	14 a			
	14 b	Discuss Correlation with suitable examples	5	5
15 b Discuss the concept of simple regression with example 5 5				
	15 b	Discuss the concept of simple regression with example	5	5
