

B.Sc. DEGREE EXAMINATION NOVEMBER 2011
BRANCH VI A: – ADVANCED ZOOLOGY & BIOTECHNOLOGY
THIRD SEMESTER

COURSE : MAJOR CORE
PAPER : MEDICAL LABORATORY TECHNOLOGY
TIME : 3 HOURS **MAX. MARKS: 100**

SECTION – A

ANSWER ALL THE QUESTIONS **(10 X 3 = 30)**

1. FILL IN THE BLANKS

- a) Glasswares are sterilized in _____.
- b) _____ is a natural anticoagulant.
- c) Ideal drug for Tuberculosis is _____.

2. DISTINGUISH BETWEEN

- a) Leukemia and Leucopenia
- b) Plasma and serum
- c) Western blot and Southern blot

3. Draw neat labeled diagrams of Polymorpho-nuclear leucocytes.

4. WHAT IS

- a) Normal saline
- b) Necrozoospermia
- c) Haemopoiesis

5. Give the normal range for

- a) Fasting Glucose
- b) Platelet count
- c) Packed cell volume for women

6. STATE WHETHER THE FOLLOWING STATEMENTS ARE TRUE OR FALSE :

- a) Truck's fluid is prepared from acetic acid.
- b) Na⁺ ion is essential for blood coagulation.
- c) Cerebrospinal fluid is usually collected by spinal puncture.
- d) If cholesterol level is elevated a triglyceride test is called for.
- e) Hepatitis B virus is a RNA virus.
- f) AST is otherwise known as SGPT.

7. MATCH THE FOLLOWING :

- | | |
|--------------|--|
| a) Milk | - i) Du test |
| b) Rh | - ii) Fuchs-Rosenthal counting chamber |
| c) CSF | - iii) Jaundice |
| d) Hepatitis | - iv) Pasteurization |
| e) Pregnancy | - v) Liver function test |
| f) ALT | - vi) Gravindex test |

8. Give the diagnostic significance of the following tests:
- RBC count
 - DAM method
 - Bleeding time
9. Give the expansion for the following:
- ESR
 - TC
 - ELISA
10. Name the causative organism for:
- Amoebiasis
 - Filariasis
 - Cysticercosis

SECTION – B

(5 X6 = 30 Marks)

ANSWER ANY FIVE QUESTIONS

- Give a short note on autoclave and its uses.
- Explain Sahli's method for haemoglobin estimation.
- Write a short account on blood transfusion.
- Briefly explain the microscopic examination of urine.
- Discuss the significance of Alanine Transaminase estimation.
- Give an account on sandwich ELISA.
- How will you identify different stages of *Plasmodium* in blood smear?

SECTION – C

(2X20 = 40 Marks)

ANSWER ANY TWO QUESTIONS

- Explain the total and differential counts of WBC.
- Give an account of pathology and prevention of HIV.
- Describe various methods of serum cholesterol estimation. Add a note on the clinical relevance of this estimation.
- Write an essay on biomedical wastes and its management.
